- (d) Operation (transaction) represents a suspicious transaction according to subparagraph (f), Article 2 of this Regulation;
- (e) Doubts arise regarding the veracity and/or adequacy of previously obtained client identification data.

2. Payment service provider shall identify the beneficial owner of the client, as well as to undertake reasonable measures to verify his/her identity by means of reliable, independent source and be satisfied that it knows who the beneficial owner of the client is. Identification procedures similar to those used for natural persons shall be applied against beneficial owner.

3. In the course of the identification and/or verification of a client (its beneficial owner), the payment service provider may rely on a third party/intermediary that carries out the identification and verification of a person in accordance with the FATF recommendations, keeps documents (their copies) as provided for by Article 10 of this Regulation, and is subject to the supervision and regulation as defined under the FATF recommendations. The payment service provider shall be required to immediately obtain from a third party/intermediary the information related to the identification and verification of a client (its beneficial owner), as well as the purpose and intended nature of business relationship. Furthermore, the payment service provider shall be required to undertake necessary measures to ensure that it can access the identification data of a client (its beneficial owner) and other relevant documents related to the identification and verification of a client (its beneficial owner) held by a third party/intermediary immediately upon request. In such cases, the ultimate responsibility for identification and verification of a client in accordance with the procedure provided for by this Regulation shall remain with the payment service provider. The payment service provider shall take into account the information available about the risk of illicit income legalization and terrorism financing in the host country of a third party/intermediary, when selecting a third party/intermediary.

4. Payment service provider for the purpose of identifying client (its representative or proxy, as well as the third person, if the transaction is being concluded (operation is being implemented) in favor of the third person) and its beneficial owner in conformity with this Regulation, shall be entitled to use the electronic databases of identification documents provided by the Public Service Development Agency – Legal Entity of Public Law at the Ministry of Justice of Georgia according to the procedure set by the Georgian legislation.

5. Identification and verification of the client as well as its beneficial owner and obtaining of other information as it is defined by this Article, shall take place before carrying out of a transaction (payment transaction), as well as prior further continuation of the business relationship if legalization of illicit income or terrorism financing is suspected or if doubts exist about the veracity or adequacy of previously-obtained client identification data, except for cases provided under paragraph 3, Article 7 of this Regulation.

6. Payment service provider prior to commencement of business relations with the client shall ascertain nature and purpose of relations the client intends to establish and perform ongoing scrutiny of relations between existing clients and the payment service provider.

7. Payment service provider shall be required to obtain the information about the nature of business activity, ownership and control structure of a legal entity (including an organizational formation (arrangement) not registered as a legal entity) when undertaking the identification and verification procedure.

8. Payment service provider shall be required to undertake the appropriate measures for obtaining the information about the purpose and intended nature of the business relationship with the client.

9. For implementing of operations defined in subparagraph (a), paragraph 1 of this Article, the payment service provider shall record person's identification details in an electronic document of payment transaction (electronic message).

10. In the course of making domestic and cross-border money remittances the following information shall be recorded on the payer:

20. If documents (information) stored in or presented to the payment service provider allow, client's bank account details shall also be recorded.

21. Payment service provider shall exercise permanent monitoring of business relationships with their clients that includes:

a) Maintaining current information and records relating to the client and its beneficial owner;

b) Updating periodically existing identification data and ensuring their conformity with current norms;

c) Scrutiny of transactions in order to establish that the conducted operation (transaction) is consistent with their knowledge of the client, client's business or personal activity and risk profile and where necessary the source of property (including funds).

22. Payment service provider shall be required to have the appropriate risk management system for the identification and verification of clients that may pose high risk of illicit income legalization and/or terrorism financing, and shall apply the enhanced identification and verification, and the enhanced monitoring procedure with respect to such clients as provided under Article 7 of this Regulation. The identification and verification procedure shall be carried out through the risk-based approach having regard to the type of the clients (the beneficial owners), their location (place of registration), geographic area or field of operation, as well as the nature and intensity of the business relationship, the type or size of transactions (operations) or products/services or other factors. A payment service provider shall be required to define the appropriate criteria (risk-factors) through its internal regulations and assign the clients to the category of the high risk of illicit income legalization and/or terrorism financing.

23. Payment service provider shall be authorized to use the simplified identification and verification procedure as provided under Article 7 of this Regulation that is commensurate with the low risk of illicit income legalization and/or terrorism financing identified through the appropriate risk assessment by a payment service provider. The use of the simplified procedure shall be prohibited when there is a suspicion of illicit income legalization and/or terrorism financing or in cases of the high risk of illicit income legalization and/or terrorism financing as provided under paragraph 22 of this Article. A payment service provider shall be authorized to use the simplified procedure once the appropriate criteria (risk-factors) are defined through its internal regulations and the clients are assigned to the category of the low risk of illicit income legalization and/or terrorism financing.

24. Payment service provider should pay special attention to any threats that may arise from new technologies, products and service that might favor anonymity during the service and take all measures, to prevent their use in legalization of illicit income and terrorism financing. Payment service provider should have in place such identification and verification policy and procedures that reduces the risks associated with non face to face service as it is considered under the Georgian legislation. Policy and procedures defined under this paragraph shall be used when establishing business relationship and when conducting permanent monitoring.

25. Provisions of this Article shall not apply to the Low-volume payment instruments/tools defined under the normative act issued in compliance with the law of Georgia “on Payment Systems and Payment Services”, the payment of utilities services and the payment in budget.

Article 7. The enhanced and simplified identification and verification procedure
